### LABOR FORCE DATA FOR SUB-COUNTY AREAS

(Data Not Seasonally Adjusted)

#### 2006 BENCHMARK

\* Monthly sub-county data are derived by multiplying current estimates of county-wide employment and unemployment by the respective employment and unemployment shares (percentages) in each sub-county area at the time of the 2000 household Census. Sub-county labor force is then obtained by summing employment and unemployment, and the result is divided into unemployment to calculate the unemployment rate.

This method assumes that the rates of change in employment and unemployment, since 2000, are exactly the same in each sub-county area as at the county level (i.e., that the shares are still accurate). If this assumption is not true for a specific sub-county area, then the estimates for that area may not be representative of the current economic conditions. Since this assumption is untested, caution should be employed when using these data.

- 1) All unemployment rates shown are calculated on unrounded data.
- 2) These data are not seasonally adjusted.
- 3) Census ratios used to calculate sub-county labor force are based on the 2000 Census. Ratios for cities of 25,000 or more persons were developed from special tabulations from the Bureau of Labor Statistics based on household population only. For smaller places and CDPs, ratios were calculated from published census data.
- 4) Labor force data for all geographic areas for 2000 to 2007 now reflect the March 2006 annual revision (or benchmark) and Census 2000 population controls at the state level. Labor force data produced using older benchmarks are no longer comparable to data based on the 2006 benchmark.

These data, as well as other labor market data, are available via the Internet at <http://www.labormarketinfo.edd.ca.gov>.

CDP stands for Census Designated Place.

#### County Data are for March (Preliminary) 2007

Area Name	Labor Force	Employment	Unemployment Number	Unemployment Rate	Census Ratios	
					Emp	Unemp

## Labor Force Data for Sub-County Areas Based on Each Area's 2000 Census Share of County Employment and Unemployment\*

County Data are for March (Preliminary) 2007

Area Name	Labor Force	Employment	Unemployment Number	Unemployment Rate	Census Ratios	
					Emp	Unemp
Lake County	26,600	24,500	2,100	7.8%	1.000000	1.000000
